Out of Office

I am a lifelong martial artist (Thaiboxing, Brazilian Jiu Jitsu) with a few tournaments under my belt and I enjoy cooking and spending time with friends.

Summary

I am a passionate Business Analyst specialized on data processing, automation and reporting. With more than two years of experience working with a large investment bank, I provide the compliance team with daily insights about suspicious account patterns and money movements. As a confident communicator I present information in a way that is clear and efficient. I am well versed in deep learning methodologies and concepts in Python and continuously advance my game through self-study and exchange with peers. I am excited to create solutions that make a positive impact on the lives of other people.

Experience

Business Analyst

2017-03 – current

Evalueserve Chile, Viña Del Mar, Chile
